SUBJECT: LETTER OF RECOMMENDATION FOR MR. DON BROGDON

To Whom It May Concern:

As Branch Chief and Process Improvement Lead for Communications-Electronics Command (CECOM), Software Engineering Center (SEC), Fires Division, I was fortunate to have had the opportunity to work closely with the Cameron University Students enrolled in the Information Technology (IT) Capstone class. Students successfully worked in Interdisciplinary Integrated teams solving, creating, and implementing a Process Library Web Portal for Fires Division, enabling the organization to continue its Process Improvement initiatives.

While serving in the capacity as the Computer Science sub-team, System Integration Programmer for his Interdisciplinary Integrated Team, Don utilized sound principles ensuring requirements were successfully designed and implemented meeting Fires Division expectations. Don was successful in integrating the Cascading Style Sheets (CSS) with the Multimedia Graphical User Interface (GUI) during an extremely tight project schedule and ensured continued communication, with other team members, resulting in successful completion of the project.

The Process Library Web Portal enables U.S. Army Fires Division to meet its critical mission operational readiness by developing, providing, integrating and maintaining Army Software and Systems for the Warfighter.

If you have any questions pertaining to this recommendation please contact me. I can be reached at (580) 678-7856 or by email at linda.j.paridon.civ@mail.mil.

Sincerely,

Linda J. Paridon
Supervisory Computer Scientist
Department of Defense, U.S. Army
